FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Dear Chairman Powell:

I am writing you to express my full support for Qwest's application to re-enter the long distance market in Colorado. As a member of the Colorado State House of Representatives I recognize that increased competition will provide my constituents with more choices, lower prices, better service and access to new products.

I also believe that increased long distance competition will generate additional investment in the state of Colorado further enhance our business climate. Increased competition will also strengthen our ability to recruit industries to the state and create new jobs.

I understand that the Federal Communications Commission will soon be considering Qwest's "271 request". I encourage the members of the Federal Communications Commission to act as expeditiously as possible and approve the application.

I am aware that the Colorado Public Utilities Commission has worked diligently for several years to ensure that Qwest complies with all the requirements of the Telecommunications Act of 1996. It's my understanding that Qwest has met all the tests and will be an able and effective competitor in the long distance market. Therefore, I once again ask the Federal Communications Commission to act quickly on Qwest's application.

Thank you for your consideration of this request and if you have questions please call me at 303-866-2939.

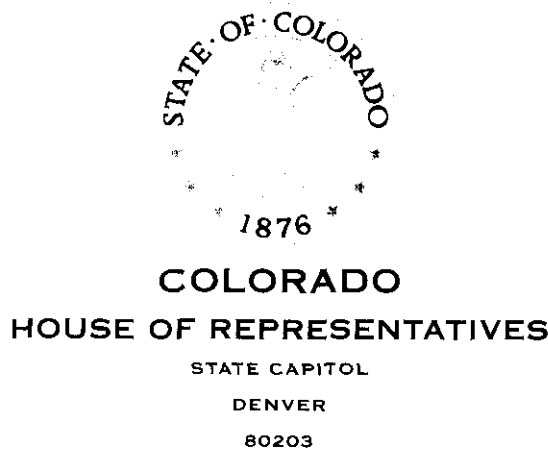

Sincerely,

Don Lee

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Dear Chairman Powell:

The application for Qwest to reenter the long distance market in Colorado has my full support. As a state senator, I recognize additional competition will mean more choices, better service, lower prices and access to new products for my constituents.

Long distance competition will generate additional investment in Colorado and give a welcome boost to our business climate. Our ability to recruit industries to Colorado and create new jobs will also result from further competition.

The Colorado Public Utilities Commission has worked for many years to ascertain that Qwest is in compliance with the requirements of the Telecommunications Act of 1996. I am convinced Qwest can successfully compete in the long distance market.

To benefit my constituents and the state of Colorado, I am hopeful the Federal Communications Commission will proceed quickly to approve the Qwest "271 request."

Sincerely,

Doug Lamborn

Dear Chairman Powell:

As a member of the Colorado State House of Representatives I am writing you to express my full support for Qwest's application to re-enter the long distance market in Colorado. Increased competition will be good for my constituents, as it will provide more choices, lower prices, better service and access to new products.

Our ability to recruit industries to the state and create new jobs is an obvious benefit to the business climate. Increased long distance competition will therefore generate additional investment in the state of Colorado.

It is my understanding that the Federal Communications Commission will soon be considering Qwest's "271 request". I encourage the members of the Federal Communications Commission to act as vigorously and quickly as possible to approve the application. The benefits of competition are long awaited and overdue to my constituents.

I am aware that the Colorado Public Utilities Commission has worked diligently for several years to ensure that Qwest complies with all the requirements of the Telecommunications Act of 1996. I believe that they have met all the tests and will be an able and effective competitor in the long distance market. FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Dear Chairman Powell,

As a State Representative, my purpose in writing is to express my support for Qwest's application to re-enter the long distance market in Colorado. My constituents in Arapahoe County are very interested in lower prices, more choice, and better service. Being able to select new products is also a priority for many of them.

Long distance competition will generate additional investment in Colorado, further enhancing our business climate. We believe that increased competition will create new jobs and attract new industry to our state.

As the Federal Communications Commission considers Qwest's "271 request," I support the action of the Federal Communications Commission to approve the application as quickly as possible. Citizens in Arapahoe County have been waiting many years for the benefits which competition will bring to Colorado.

The Colorado Public Utilities Commission has worked hard to ensure that Qwest complies with all requirements of the Telecommunications Act of 1996. I am confident that Qwest has met all the tests and will be very competitive in the long distance market.

I am requesting that the Federal Communications Commission act quickly on the application which Qwest has submitted for re-entering the long distance market. Thank you for considering this request, and if you need to reach me, please call me at my home office at 303-690-5106.

Sincerely,

Rep. Nancy Spence

Mr. Michael K. Powell, Chairman
Federal Communications Commission
445 12th Street, S.W.
Washington, DC 20554

Dear Chairman Powell:

I am writing you to express my full support for Qwest's application to re-enter the long distance market in Colorado. As a member of the Colorado State House of Representatives, I recognize that increased competition will provide my constituents with more choices, lower prices, better service and access to new products.

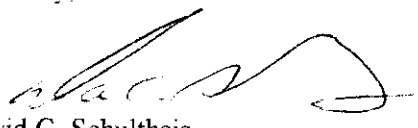

I also believe that increased long distance competition will generate additional investment in the State of Colorado, further enhancing our business climate. Increased competition will also strengthen our ability to recruit industries to the state and create new jobs.

I understand that the Federal Communications Commission will soon be considering Qwest's "271 request." I encourage the members of the Federal Communications Commission to act as expeditiously as possible to approve the application. My constituents are anxious to receive the future benefits of competition.

I am aware that the Colorado Public Utilities Commission has worked diligently for several years to ensure that Qwest complies with all the requirements of the Telecommunications Act of 1996. I believe that they have met all the tests and will be an able and effective competitor in the long distance market. Therefore, I once again ask the Federal Communications Commission to act quickly on Qwest's application.

Thank you for your consideration of this request. If you have questions, you may call me at 303-866-2937.

Sincerely,

David C. Schultheis
State Representative
House District 22

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Dear Chairman Powell:

I'm writing you to express my full support for Qwest's application to re-enter the long distance market in Colorado. As a member of the Colorado State House I recognize that increased competition will provide my constituents with more choices, lower prices, better service and access to new products.

I also believe that increased long distance competition will generate additional investment in the state of Colorado further enhancing our business climate. Increased competition will also strengthen our ability to recruit industries to the state and create new jobs.

I'm aware that the Colorado Public Utilities Commission has worked diligently for over two years to ensure that Qwest's complies with all the requirements of the Telecommunications Act of 1996. I believe that they have met all the tests and will be an able and effective competitor in the long distance market. Therefore, I once again ask the Federal Communications Commission to act on Qwest's application.

Thank you for your consideration of this request and if you have any questions please call me at 303.871.4195

Sincerely,

Peter C. Groff

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Dear Chairman Powell:

On behalf of the Lafayette City Council, I would like to express our support for competitive telecommunications service provision to the citizens of our community. We believe that consumers should have a variety of provider alternatives and competitive prices from which to choose.

Council has recently been made aware that Qwest is applying to the FCC for permission to offer long distance service in Colorado. We encourage your agency to review the Qwest application favorably and assist in whatever way possible to expedite its approval.

Opening Colorado's long-distance market to more competition will benefit Lafayette citizens and businesses, as well as consumers throughout the state, by affording better service, more choices, and more competitive prices.

Sincerely,

Dale Avery
Mayor of Lafayette, Colorado
